## col·lec·tive

/kə'lektiv/

*adjective*

done by people acting as a group.  
"a collective protest"

*noun*

a cooperative enterprise.

*The Collective* is a loosely formed group of photographers from around the world. We share an enthusiasm for photography that knows no boundaries. Working with us to build your brand, create dynamic images for your clients, or complete your visual strategy in social media is super easy. We bring years of creative output to every gig.

The photographers in these pages are ready with solutions for your visual challenges. We are tested. we are hungry. We want to save the world from boring, uninteresting, and lazy photography.

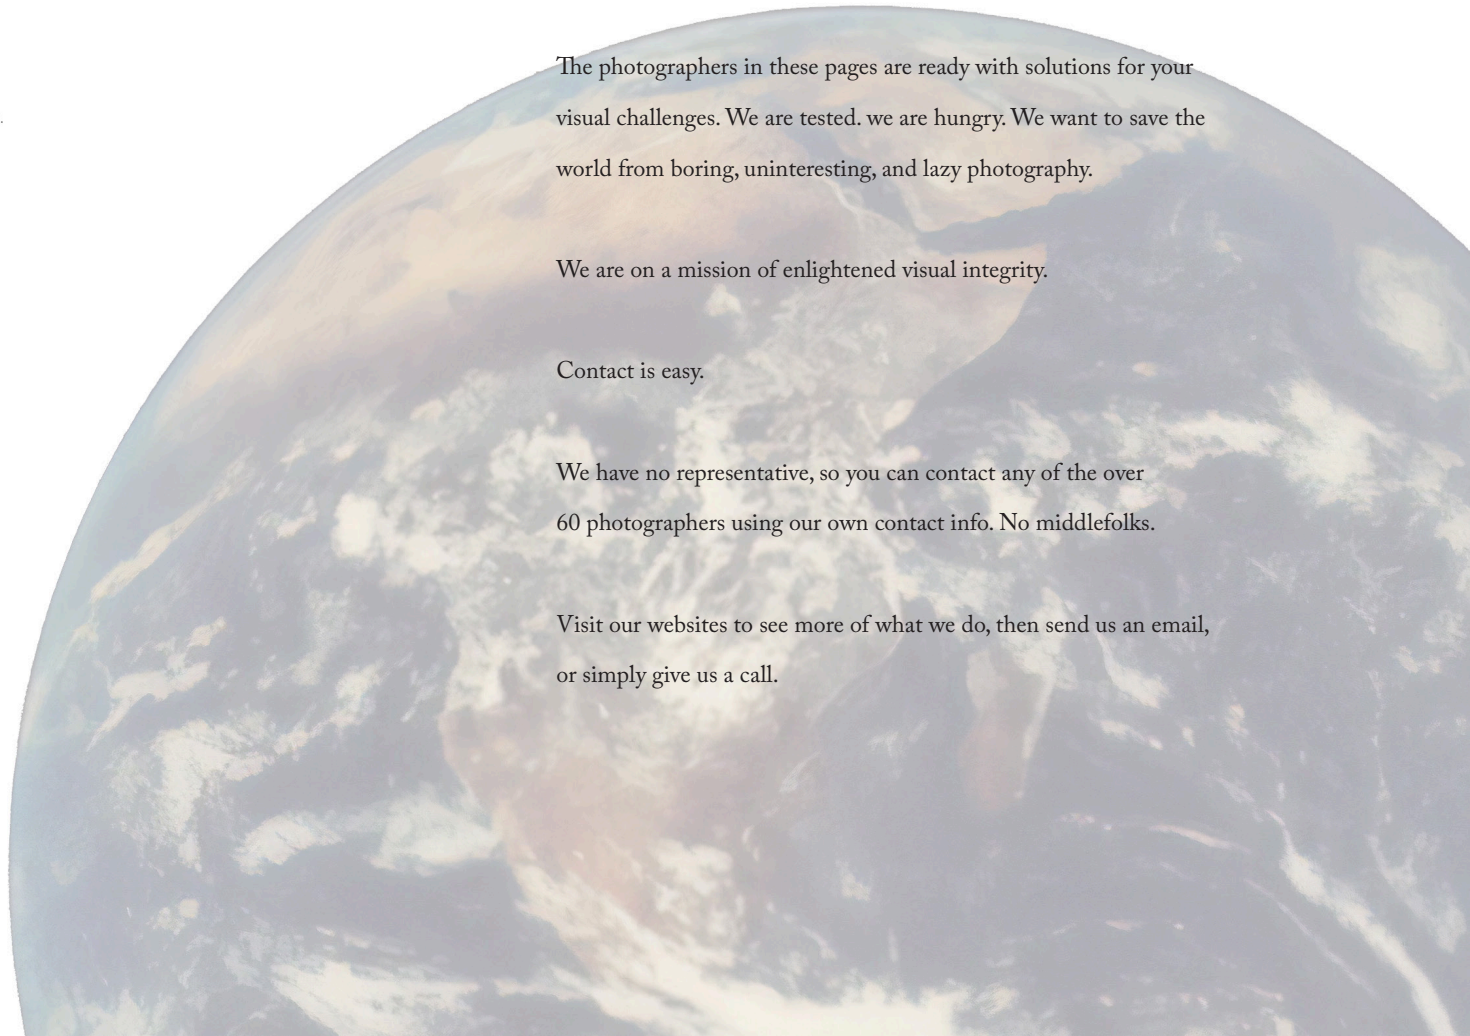

We are on a mission of enlightened visual integrity.

Contact is easy.

We have no representative, so you can contact any of the over 60 photographers using our own contact info. No middlefolks.

Visit our websites to see more of what we do, then send us an email, or simply give us a call.

We dedicate this book to our great friend and photographer, Ivan Sorensen, whom we all miss.
